Hon. Commissioner of Patents and Trademarks
PO Box 1450

Sir:

Applicants filed an Amendment on August 22, 2001 in response to a communication from the Patent Office dated August 14, 2001. To this date, Applicants have not received a reply. Applicants are concerned about the possibility that the application has become lost at the Patent Office. Applicants telephoned the Examiner on August 17, 2005 and again in December 2005 but have not received any confirmation that the application has been found and that Applicants should expect to receive a reply.

Applicants kindly request that this application file be located as soon as possible and acted on in an expedited manner given this extensive delay of almost five (5) years.

Respectfully submitted,
